Profile

Engineering student in Fluid Mechanics, Energy & Environment (ENSEEIHT, Toulouse INP).

Languages

- English: B2 (Cambridge)
- Spanish: A2

Technical skills

Tools:

- Microsoft Office
- Onshape (CAD)
- ANSYS Fluent
- COMSOL Multiphysics

Programming languages:

- Python
- LaTeX
- FORTRAN
- Arduino

Interests

- Tennis (French ranking 15/2)
- Padel (ranked 3500th)

Looking for a 6-week internship in Fluid Mechanics starting June 1st, 2027

Currently a 1st year student in Fluid Mechanics, Energy & Environment at ENSEEIHT, Toulouse

Education

2026 – 2029 ***ENSEEIHT / Toulouse INP***
Engineering degree in Fluid Mechanics, Energy & Environment

2024 – 2026 ***Preparatory classes for engineering schools (PCSI-PSI)***
Lycée Paul Cézanne, Aix-en-Provence

2021 – 2024 ***Lycée Émile Zola, Aix-en-Provence***
French Baccalauréat: Mathematics & Physics-Chemistry, European English section, highest honours (Très Bien)

Professional experience

2022 ***Project quality monitoring – SELERYS, Aix-en-Provence (1 week)***
Quality monitoring for the production of a launcher for a meteorological sounding balloon.

- Checking compliance with the specifications to ensure the module works in bad weather
- Client meetings to cut costs and improve the efficiency of building the launcher and the balloon

Academic projects

NOV. – JUNE 2027 ***Launch – project in collaboration with ASTRE and CNES***

- Design and construction of a small-scale rocket.
- Work on the rocket's recovery system to reduce losses

JAN. 2025 – JUNE 2026 ***TIPE: Inductive charger for an autonomous electric vehicle***

- Modelling of the physical phenomenon of induction.
- Prototyping and building a 2-axis Hall-effect control system on an Arduino board

Certifications

2023 ***Aeronautics Initiation Certificate (BIA)***
Highest honours (Très Bien)

2022 ***First aid certificate***
PSC1
